

Cover & Touch

Neither face nor formulation need be touched by hand with HCP's Cover & Touch pack. The 2-in-1 component combines a 5ml (OFC) PCTA bottle with a variety of applicators for use with liquid formulation with a 17mm twist mechanism for a solid stick product. The body offers options for metallisation, gloss, matt UV or pearl sprays. The bottle allows for excellent product shade ID when clear moulded, with screen printing options for both body and bottle.

HCP Ref:
58S
