OUR PROMISE

A powerful lash enhancing serum that promotes the appearance of longer, thicker-looking lashes with full improvement in just 8 weeks. It's a favorite for helping enhance short or thinning lashes. Also ideal for restoring the appearance of brittle or damaged lashes. This breakthrough formula is clinically proven to provide longer, bolder and thicker lashes. Supports frail lashes to become healthier and stronger. Enjoy visibly different, stunning lashes!

- 1. MAKE UP RESULTS:** clinically tested results:
 - lash diameter increased 1.9% after 56 days;
 - lash volume increased 6% after 56 days;
 - lash length increased 2.5% after 56 days.
- 2. TEXTURE/SENSORIALITY:** Lash ecstasy growth booster is infused with a precious mix of actives and raws that deliver nutrients to feed lashes with nature's most powerful ingredients.
- 3. ACTIVE INGREDIENTS**
 - **Argan oil** > conditioning and nourishing
 - **Lash growth booster** > lash-healthy enhancer
 - **Panthenol** > moisturizing and soothing
- 4. APPLICATION:** apply the serum with a single stroke directly to the base of upper and lower lashes twice a day after your skin care routine. Start from the inner corner of the eye and move towards your outer lashes. Apply the serum on eyebrows too with a few quick strokes. For best results, it is recommended to continue use for at least 8 weeks. One brush stroke is sufficient to cover all the lash line.

OUR INNOVATION

Water Based Gel
97% Natural derived ingredients

IMPROVEMENT POWERED BY NATURE

Cellulose-based Jellifying Agent: this jellifying agent derives from the cellulose, and it creates flexible, soft and non-sticky film on the lashes that also has conditioning properties.

Argan Oil: it has incredible conditioning and nourishing properties for lashes, thus it nourishes your lashes right at the root and helps achieve fuller looking lashes

Panthenol: especially used in haircare, this vitamin ingredient is celebrated for its humectant properties and its ability to improve the resistance of hair to mechanical stress. It has also moisturizing and humectant properties combined to its anti-inflammatory and soothing effects on irritated and sensitive skins.

Lash Growth Booster: active ingredient made by a peptide that improves significantly lash growth from only 4 weeks of application and significantly increases the number of new lashes after 8 weeks of application. It delays the loss and promotes lash growth phase to elongate and increase lash density.
