Cover & Blend

Neither face nor formulation need be touched by hand with HCP's Cover & Blend pack. The 3-in-1 component combines a 5ml (OFC) PCTA bottle with a variety applicators for use with liquid formulation, a twist mechanism for a solid stick and a rollerball blending tool to massage the formula into the skin for an even finish. The body offers options for metallisation, gloss, matt UV or pearl sprays. The bottle allows for excellent product shade ID when clear moulded, with screen printing options for both body and bottle.
