

14mm Fusion Glass Ultra (1 piece cap)

A contemporary design that is thick walled and highly complementary to the versatile Fusion Glass range. Multi-functional applicators, clear PCTA rod for a beautiful transparent appearance, options for colour ID and excellent formula compatibility makes this an essential pack for colour cosmetics brands. A great pack solution for light-sensitive formulations. The PETG bottle (OFC: 10.4ml) and base button give an option for a crystal clear ‘glass-like’ appearance while transparent and opaque sections provide shade ID. The Fusion Glass Ultra is available with three cap option: one piece, two piece with flat moulded top-plate or the opportunity to add a moulded diamond which can be clear, opaque or tinted while branding can be added beneath with screen print or hotfoil. This item is also a popular, contemporary choice for concealer products.
