Domed Meridian Pot (small)

The Meridian Pots are a cohesive and flexible range of screw threaded pots suitable for powder, cream or gel formulations. The domed cap option adds extra height and can be moulded in clear/opaque/tinted or can be sprayed for extra decoration. Hot foil or screen printed designs can be applied to the back of the dome. Available in a range of sizes with capacities ranging from 5ml to 40ml, the pots can be supplied with sifters (PP or PP/Mesh) or with paper sealing discs. The jars can be moulded in transparent (SAN or PMMA) materials, while the closures can be colour moulded, UV sprayed or vacuum metallised. The Meridian Pot range fits perfectly with HCP's Fusion products, or can be used to compliment an existing or stand alone range of customer products.

HCP Ref:
365 Base / 15X Cap with Dome
