Reflection Magni Pot (large/30ml)

The popular PETG Magni Pot is suitable for products in 5ml, 15ml and 30ml sizes; admired for the premium glass-like effect of its extra thick base. With great compatibility for skincare, foundation and waterproof formulations, these items come with a screw thread cap and can be supplied with PE or PET liners to suit different formulas. The Reflection cap is a two-piece construction where a mirror top-plate is placed into the recess.
