

Magni Double-Level Pot (medium/15ml)

The popular PETG Magni Double-Level Pot is suitable for products in 5ml and 15ml sizes; admired for the premium glass-like effect of its extra thick base. With great compatibility for skincare, foundation and waterproof formulations, these items come with a screw thread cap and can be supplied with PE or PET liners to suit different formulas. The Double-Level cap is a clever cylindrical design where the top section of the pot has a hinged opening feature and the lower section features a screw threaded twist-off pot. Both parts are fitted with high-quality mirrors. These pots are suitable for a wide range of powder or solid colour cosmetics products.

HCP Ref:

34X Base / 30Y Double-Level Cap
