

13mm Standard/Trade Size Waterproof Mascara (Eco – PCR)

As part of HCP's Eco program to offer sustainable packaging options, this item is produced using PCR materials. The cap is offered in 100% R-ABS and the bottle 100% R-PET. R-PP bottle can be available on request. HCP's Standard 13mm cylindrical mascara is an incredibly versatile pack for mass through to prestige brands. Available with either a PP or PET bottle, this pack suits either crème or waterproof formulations and is a co-ordinated choice for any round cosmetics range. This item can also be paired with the innovative Feather Comb applicator moulded in EcoWood - as shown in HCP's trend 'Hush'. Precision moulded in black EcoWood, the raw bio-based material is completely plastic-free, carbon neutral and exclusive to HCP. The comb-style brush has widely spaced bristles to achieve excellent separation and lengthening results, while the feather-shaped profile has a tapered tip to groom brows or reach inner and outer corner lashes.
