

Colour Dropper

For skincare packaging that makes a striking impression, match to a myriad of hues with the 'Colour Dropper'. For targeted and precise application, dose the product drop by drop with the soft and flexible TPE bulb and PP pipette. Ideal for low-viscosity formulas such as liquid cosmetics, serum, essence, lotion and facial oils; with packaging that effectively limits contamination and wastage. Switch it up with the addition of an overcap and a variety of stylish PET bottle profiles (7-100ml capacities/18mm neck diameter) and fast lead times for a wide spectrum of custom colours. This all-plastic pack can be easily disassembled for recycling purposes.
