15mm Jumbo Uno Lipgloss (Mono-material)

The ‘Jumbo-Uno’ Lipgloss is HCP's largest lipgloss pack for both neck size and capacity, it is paired with a large rod diameter and oversized applicators to achieve a full and dramatic look. Thanks to a range of high-performance applicators and large-capacity pack, this is ideal for highlighting, complexion and lipgloss formulas. Manufactured in HCP China, the newly developed ’15mm Jumbo-Uno’ lip gloss is now optimised with a mono-material construction – ready-to-recycle within the PP/PE recycling stream.
