

Horizon Fine Mist Pump – 30ml

The 'Horizon Fine Mist Pump' offers game-changing packaging for products such as facial mists or make-up setting sprays. The pump delivers a fine, controlled mist that enhances the user experience and ensures optimal product distribution. Accurate and consistent dosing minimises product wastage by evenly dispersing the desired amount, maximising cost-efficiency for the consumer. **HYGIENIC & USER-FRIENDLY:** Ideal for aqueous formulas such as hydrating facial mists, soothing toners or make-up setting spray, this pack offers a hygienic solution that allows the consumer to easily refresh their face anytime, anywhere or set their make-up with a few quick spritzes. **PORTABLE:** The compact size of the 30ml pack is beneficial for frequent travellers who like to freshen their complexion throughout the day, while the twist-lock feature secures against leakage. **FAST & EFFECTIVE APPLICATION:** The accurate and consistent dispensing of an ultra-fine mist allows skin to easily and quickly absorb the formula. The effective spray nozzle directs the spray onto the face, avoiding mess and waste.
