Grafik Square Refill Eyeshadow Compact

As well as embodying sleek, contemporary packaging aesthetics, the 'Grafik Refill Compact' has been innovatively constructed to enable easy pan refill and disassembly. The entire compact is designed for manufacture with mono-material PET; allowing the pack to be placed into the domestic recycling stream at end-of-life, once the metal pan has been removed. For brands looking to contribute to the circular economy and reduce the demand of virgin materials, HCP offer 'Grafik' moulded with an accredited source of PCR PET.
