

Twist Tottle 30ml

Introducing the 'Twist Tottle 30ml' from HCP's Design Futures Team: an innovative new packaging design for liquid cosmetics and skincare products. With its one-handed dispensing feature, this clever pack allows for easy, accessible and convenient use of products such as sunscreen, foundation and serum as well as haircare. The unique twist-opening design function eliminates the need for a separate overcap, reducing overall component parts. Perfect for travel, the tottle's squeezability and portable size makes it an ideal choice for on-the-go beauty products.
