Manhattan Quad Compact

Each of the Manhattan compacts have identical external dimensions with a choice of insert options to suit a variety of product possibilities within one single size variant. This simple yet versatile design is complimented by the use of robust materials and HCP's unique plastic hinge/clasp technology. The 'Manhattan' range is a contemporary high-quality design ideally suited for moulding in transparent materials, although the compacts can also be opaque moulded. Pans can be moulded in clear plastic to provide a completely transparent aesthetic.

HCP Ref:
239
