

Divine Round Diamond Trimline Lipstick

The Divine Round Diamond Trimline Lipstick is a 50/50 design cylindrical container with HCP's unique 'super smooth' swivel mechanism design. The cup is designed to accommodate a 10.9mm diameter bullet and the mechanism is designed for top filling. The cover and basecap are injection moulded components and the A-shell is anodised aluminium. The cover is decorated with a jewel which comes in many colour choices - this can also be decorated with top-plates in gel, paper, metal or textile. The orientation feature in cap enables registration of multiple passes of hotfoil or screen printed artwork. Available with POM-Free Lipstick Mechanism: 68C.

HCP Ref:
52S
