Diamond Meridian Pot (large)

The Diamond Meridian Pots feature a moulded faceted top-plate inspired precious stones. This design adds a luxury aesthetic to the screw threaded pot that is suitable for powder, cream or gel formulations. When moulded clear or subtly tinted, the diamond can be presented with a logo beneath in screen print or hot foil, to add stunning reflectivity. The Meridian Pots are a cohesive and flexible range of screw threaded pots suitable for powder, cream or gel formulations. Available in a range of sizes with capacities ranging from 5ml to 40ml (without sifters), the pots can be supplied with sifters (PP or PP/Mesh) or with paper sealing discs. The pots can be moulded in transparent (SAN or PMMA) materials, while the closures can be colour moulded, UV sprayed or vacuum metallised. The Meridian Pot range fits perfectly with HCP's Fusion products, or can be used to compliment an existing or stand alone range of customer products. This item can also be adapted to feature other decorative top-plates such as a mirror, gel, textile or paper.

HCP Ref:
34C Base / 387 Recess Cap with Diamond
